Fair Chase Hunting

Fair chase hunting in the Montana wilderness is a challenging and memorable experience. We have experienced guides who know the area and very good horse and mule stock for packing and riding in the mountains. From September to mid-October ABO operates two backcountry tent camps, Hellroaring and Independence. Hellroaring is located in Bull Moose Meadow, 8 miles north of Yellowstone National Park. Independence is located 55 miles south of Big Timber at the head of the Boulder River. Our backcountry camps are some of the best in Montana including comfortable accommodations and a great cook. During the general season, which begins in late October, we hunt in the backcountry from a tent camp at Independence or from a lodge bordering the wilderness hunting areas.

Fair chase hunting on private ranches with ABO offers our hunters a unique variety of species in distinctive settings. The opportunity to hunt elk, mule deer, white-tail deer, antelope, black bear, wolf, duck, goose and turkey is provided to a limited number of hunters. You can choose to hunt on the picturesque Lazy E-L Ranch (lazyel.com) just outside Roscoe, Montana or a variety of select Big Timber Ranches which include a trophy opportunity elk and deer ranch. Each of these elite locations offers rolling hills, creeks, river frontage and an abundance of game.

Whether you are looking for the challenge of a wilderness hunt or the exclusive opportunity to hunt on private land, Absaroka-Beartooth Outfitters is committed to giving you the best possible hunting experience.

All non-resident elk and deer licenses are available through a draw system.

Non-residents who want to elk and deer hunt in Montana must apply in March of the year they want to hunt for either a General Big Game Combination, General Elk Combination, or General Deer Combination License. The application deadline is April 1. The drawing takes place mid-April. Hunters can go online to Montana Fish Wildlife and Parks, fwp.mt.gov, to learn more about drawing elk and deer licenses. Do not be discouraged; your chances of drawing a combination elk/deer license are quite good if you plan ahead. **Buying preference points will improve your chances of drawing a general combo license.** All ABO's elk and deer hunting areas are general license areas. None of ABO's elk/deer areas require a special elk or deer permit to hunt, so there is no need to purchase a bonus point for elk or deer to hunt with ABO. The preference point and bonus point system is explained on the MFWP website. We are happy to provide clarification or answer any questions you may have about licensing and preference points.

ABOADVENTURES.COM

The MOGA Hunter/Angler Defense Fund

In 2012 Montana Outfitters and Guides Association established the Hunter/Angler Defense Fund to ensure that non-resident sportsmen would be able to continue to have the opportunity to hunt and fish in Montana. As members of MOGA, we believe our establishing the Hunter/Angler Defense Fund (MHADF) is the best way to support our industry in the fight for your right to hunt and fish in Montana. When you book a hunt with Absaroka Beartooth Outfitters, the \$50 additional fee added to your hunt goes to the MOGA Hunter/Angler Defense Fund. Thank you for your participation!

The following is information provided by Montana Outfitters & Guides Association

Hunter/Angler Access Defense Fund: Outfitters Defending Nationwide Right to Hunt and Fish in Montana

“In a civilized and cultivated country, wild animals only continue to exist at all when preserved by sportsmen. The excellent people who protest against all hunting and consider sportsmen as enemies of wildlife are ignorant of the fact that in reality the genuine sportsman is by all odds, the most important factor in keeping the larger and more valuable wild creatures from total extinction.” - Theodore Roosevelt

The MOGA Hunter/Angler Defense Fund (MHADF) was established to ensure that non-resident sportsmen will continue to have the opportunity to hunt and fish in Montana.

Trophy hunting and sport fishing, particularly by non-residents, is under increasing pressure in Montana from radical groups both within the state and animal rights activists outside of the state. Although these groups differ in their composition and tactics they both seek the same outcome; reduced hunting and fishing opportunity. The in-state contingent, who purport to be “sportsmen” seek to fracture the hunting and angling community along lines of residence and then significantly restrict non-resident hunting and fishing opportunity. The anti-hunting group just seeks to reduce hunting opportunity and will take what gains they can. In both cases, success is measured by a net loss in opportunity in Montana. Unfortunately, they are both making gains.

ABOADVENTURES.COM

The anti-hunting pressure from the “anti-everything” organizations is strong and well organized. They have unlimited resources and are using new strategies and building alliances to lobby their agendas. Their relentless efforts to prevent delisting of wolves and grizzly bears and thwart effective and professional management for these species are but one example.

Fringe groups, led by the Montana Wildlife Federation, believe that outfitting services equate to the commercialization of wildlife and profess it to be the same as the outlawed practice of market hunting of years ago. They claim that fees paid for Outfitter services, leasing of land for quality hunting and fishing access, and the purchase of outfitters services for fishing constitute a breach of the Public Trust and that jeopardizes the public’s opportunity to enjoy the natural bounty of Montana.

They see reducing the guided non-resident opportunity as a means to enhance their personal opportunity at the expense of others. They ignore the huge contribution to Montana’s wildlife and fisheries management system that non-residents make and the vital economic contribution they sustain. Their tactics of misinformation and fear mongering fracture and weaken the overall hunting community; jeopardizing funding for effective management of natural resources in Montana.

Unfortunately, much of the public are misinformed or under informed. As hunters and anglers, we must be vigilant and diligent about relaying the benefits of hunting and fishing to the 70% of people who sit “in the middle”. MOGA will continue to take the lead in supporting sound, scientifically based resource management, and our members will continue to serve as active stewards of Montana’s natural and cultural heritage.

MOGA is the only organization within Montana that is dedicated to preserving sporting opportunities for nonresidents, including the opportunities for guided hunts, floats, and fishing trips.

If we want hunting to be around for future generations we must have our story told; that hunters and anglers, regardless of where they live, are the true conservationists because hunters pay for conservation and have willingly done so for years. It is a certainty that our opportunity to hunt and fish will be lost if we are fragmented by where we are from, the equipment we use, the species we pursue or the reasons we hunt.

About the MOGA Hunter/Angler Defense Fund

MOGA members charge their sportsmen clients a \$50.00 fee. This contribution is collected by the outfitter, held in-trust for MOGA, and remitted at year end.
